

Grad Symposium'25

SUSTAINABLE SOLUTIONS IN ENGINEERING

YTU GradSymposium'25 May 15, 2025

Dear Esteemed Scholars and Young Researchers,

As the Graduate School of Science and Engineering, we are honored to invite you to our symposium titled "*Sustainable Solutions in Engineering.*" The concept of "sustainability," which is gaining increasing importance on a global scale, merges with the innovative power of engineering disciplines to inspire solutions of the future. In this regard, our symposium will serve as a significant scientific event, bringing together both academic and industry stakeholders.

During our event, innovative research, successful case studies, and solution strategies will be discussed under the theme of sustainability. Participants will have the opportunity to exchange knowledge, explore collaboration opportunities, and share ideas that will shape the engineering approaches of the future. With contributions from expert speakers, academics, and industry representatives, the symposium aims to create an inspiring platform for the exchange of ideas and knowledge.

It would be a great honor for us to have you join this meaningful event to share your knowledge and experience on the path to developing sustainable engineering solutions.

For detailed information and registration, please visit our website. We thank you in advance for your participation and support, and extend our best wishes for a productive symposium.

Sincerely,

Graduate School of Science and Engineering
